

ANDERS HEALTH CARE

PROVIDER ENROLLMENT AND CREDENTIALING

If not performed correctly provider enrollment and credentialing can put your organization at risk of being noncompliant with payers and government entities. It can also be time consuming, frustrating and cost hospitals and physician practices thousands if not millions in revenue.

For clients who do not have the resources or full time staff to dedicate to complete the credentialing and provider enrollment process, perform necessary primary source verifications, keep up with revalidations, CAQH, PECOS and other payer policies and procedure changes, Anders Health Care Services can handle those credentialing needs.

PROVIDER ISSUES

- Lack of workflow
- Keeping payers updated with organization changes
- Storing and managing organization and provider documentation (license, DEA, CDS, degrees, CV, resume, malpractice)
- Staying on top of payer processes and changes
- Being non-responsive to revalidation and re-credentialing requests
- Lapse in participation causes loss in revenue due to payer denials
- Risk of losing payer participation

CLIENT PAIN POINTS IN WORKING WITH OUTSOURCED PROVIDERS

- Lack of feedback and communication
- Inability to access documents
- Need for status report to know where the provider is at in the credentialing process
- Even though much of the work has been outsourced, there is still a lot of work

THE ANDERS SOLUTION

Anders Health Care Services helps clients streamline the process and increase their revenue by decreasing their credentialing and provider enrollment processing times. We will help you:

- Perform all credentialing and enrollment processes for your organization, locations, providers and mid-levels
- Update and maintain:
 - PECOS
 - NPPES
 - CAQH
 - Managed Care Plans
 - Government Payers (Medicare, Medicaid)
- Increase revenue opportunities by decreasing approval timeframes with payers (gives the client the ability to bill for services quicker)
- Eliminate risk of lost revenue due to provider contract termination
- Perform all Primary Source Verifications (PSVs), credentialing and enrollment processes for your organizations's locations and providers

- Complete and submit all payer applications and follow up (government payers and managed care payers)
- Ensure correspondence addresses and information is set-up properly for all providers and locations
- Provider and locations reconciliation for participation status with all payers to identify providers and locations that should have been previously terminated
- Update clients on credentialing changes and opportunities
- Provide a HIPAA secure online portal for clients to upload all provider and organization documentation
- Provide a secure environment to store all provider and electronic documentation and information
- Monitor provider documentation and remind clients when licensures and other documents are about to expire
- Provide regular credentialing status reports bi-weekly or monthly

ABOUT ANDERS HEALTH CARE SERVICES

Anders Health Care Services is the health care specialty group of Anders CPAs + Advisors. We provide creative, yet practical, solutions to handle the balancing act required to succeed in today's health care environment. Our comprehensive view of the health care industry recognizes how everything you do in your organization impacts your bottom line.

EFFICIENT, EFFECTIVE, ECONOMICAL

When you engage Anders, we'll always be right by your side to answer your questions and help drive smart, informed decisions. You'll have direct access to our health care leaders and our entire team of industry advisors. In addition to this service, we also offer extensive, multidisciplinary financial and advisory services for physicians, hospitals, medical centers, home health organizations, nursing homes and other facilities, from individual practices to multi-location health systems.

Partnering with an experienced advisory firm to make informed business decisions is important. The health of your organization depends on it. We understand the health care industry and offer valuable insights on a wide range of issues that impact the growth and visibility of your organization.
