

ANDERS HEALTH CARE **VALUATION AND COMPENSATION ARRANGEMENTS**

Today, organizations in the health care industry are impacted by an ever-changing landscape of rules and regulations, regulatory oversight and standards. Valuations of health care enterprises, equity interests, intangible assets as well as fair market value (FMV) compensation arrangements and service agreements are often required for internal and external compliance, and can also provide insight into fair market value drivers and dynamics.

Our professionals have extensive experience performing valuations for health care entities ranging from physician practices to health systems as well as ancillary service lines. In addition, we have specialized experience in the valuation of intangible assets, such as trade names/marks, technology, medical records, contracts, and non-compete agreements, as well as providing fair market value opinions for various compensation and management arrangements.
