

ANDERS TECHNOLOGY

TECHNOLOGY DRIVEN, BUSINESS MINDED

For over 35 years, we've been passionate about leveraging technology to accomplish business goals. From navigating a successful merger or acquisition so employees can be productive from day one, to automating processes to create time-saving efficiencies, our team of over 30 advisors have the bench strength and experience you need at your fingertips. As a Microsoft® Solutions Partner and direct reseller, we have in-depth expertise to leverage these tools to their full potential.

SUPPORT YOU NEED, HOW YOU NEED IT

You determine the level of service you need, regardless of whether it's for a single project like a server migration, or long-term managed services for monitoring and maintenance.

CO-MANAGED SERVICES OR FULLY OUTSOURCED

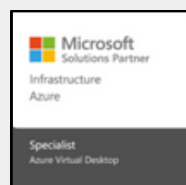

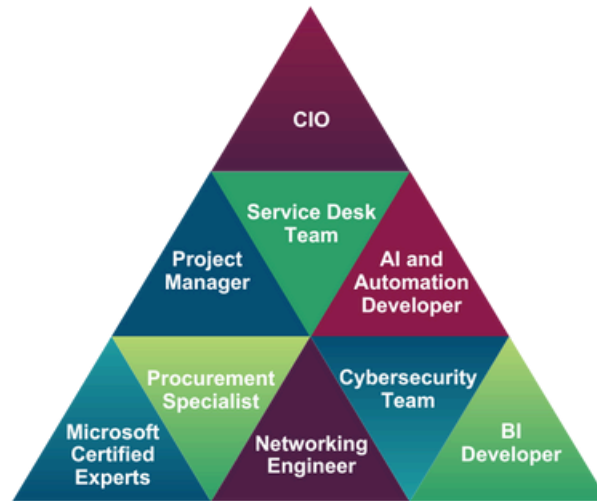

A one-size-fits-all technology approach doesn't work for every organization. At Anders, our technology advisors can work directly with your IT team to supplement expertise, helping you save on overhead, or act as your entire outsourced IT department and helpdesk.

WE CAN SUPPLEMENT YOUR IT TEAM.

OR

WE CAN BE YOUR FULLY OUTSOURCED IT TEAM.

NATIONALLY RECOGNIZED

Anders Technology is nationally recognized on the 2024 MSP 500 list by CRN, the 2023 VAR 100 list by Accounting Today and for its Advanced Specialization in Azure Virtual Desktops.
